At the Rangers field yesterday afternoon the D. C. V. baseball team added another victory to their list when they defeated the clerks, doing so in the ninth inning and winning by a score of 9 to 8. J. Williams held the batting honors of the day, getting a triple, a double, and a single. The batteries: D. C. V.—Callegari and Calderara; clerks—A. Williams and Susena. This afternoon the D. C. V. team is scheduled to play the White Sox.

The report that Mrs. William Cassie, a former resident, was a passenger on the Lusitania, when it was torpedoed off Kinsale, Ireland, last Friday, is given little credit by friends of the woman in this city. It is known that Mrs. Cassie, who has been passing some time in New York, contemplated a trip to England and it was believed that she had engaged passage on the Lusitania. A search of the passenger lists, however, fails to disclose her name, and among her acquaintances here there is a feeling that she deferred her trip to England.

Barre's method of entertaining the New England cemetery superintendents on the occasion of their visit to this section has assumed a new character.

Westerly granite men who met to entertain the superintendents in June. The good time which the delegates had in this city is being used by the association officers in inducing every superintendent to attend the gathering in Rhode Island this year. June 7 and 8 are the dates of the summer outing and after an inspection of the principal cemeteries in Providence on the morning of the 7th, the superintendents will devote the following day to an inspection of the quarries at Westerly. Point Judith Naragansett, Supt. Alex. Hinton of the Barre city cemeteries and E. T. Cutler, a member of the cemetery commission, are planning to take part in the outing.

A reader in The Times, who has been receiving a lot of ten "don'ts" sent out by the United States forest service in connection with its attempt to secure public co-operation in the work of reducing forest fires to a minimum, suggests that the first three of the ten "forest" commandments might be applicable in sections where the wooded growth is replaced by something less verdant, although quite as inflammable. He has reference to the fire damage done yesterday when an awning in front of the F. D. Ladd Co.'s store caught fire, presumably from a lighted cigarette carelessly thrown from a window. The "don'ts" don't thrive and are not away until you are sure it is not. Don't drop cigarette or cigar butts until the glow is extinguished. Don't knock out your pipe ashes while hot (meaning ashes) or where they will fall into dry leaves or other inflammable material.

Two Barre boys were off this morning on a long hike that will take them 30 miles along the Green Mountain trail before they clamber down the slopes of Camel's Hump to Calahan's and thence to North Duxbury for the return trip home. Emory J. Newhall of Orange street and Sidney Oliver of Church street left at 8:15 o'clock by rail for Waterbury and intended to proceed from that point over the electric road to Stowe. Their hike was scheduled to begin at that point. After ascending Mount Mansfield, to the highest point in the state, they proposed to follow along the Mansfield ridge and from there on to Bolton mountain. Crossing the Winouski valley, the young men will strike a Lewis and Clark loop for the Chittenden county side of Camel's Hump. From Huntington they will travel along the newly blazed trail to the summit of the Hump. The travelers expected to encounter but little difficulty in finding or making shelter. They are well provided with cooking utensils and will procure some of the memorable incidents of the journey with the aid of a camera.

The R. A. A., commonly known as the Wahoo Braves, went to Plainfield Saturday and met defeat by a score of 6 to 4. It was the fastest game played in Plainfield this year. In the first two innings, the Wahoos were ahead 1 to 0, and in the eighth inning the score was a tie, 3 to 3, but in the next inning the Wahoos made a few wild throws and lost the game. Polli, the pitcher for the Wahoos, was in excellent form, allowing only six hits and striking out 12 men. Ross, the catcher, also played a good game. Bob Cutting showed good form, but was hit hard, for he allowed 10 hits and struck out eight men.

The work is a part of the state forestry service and for two weeks the reforestation project has been under way. The men engaged on the mountain are occupying an abandoned lumber camp. Thousands of seedlings have been set out already and by June 1, when the work is to be completed, it is expected that a very large area of land recently denuded of timber will have been covered by the reforestation crew.

Body of Cassius N. Chase Found by Children.

Winooki, May 11.—Cassius Newton Chase, who led the life of a hermit for many years at Malletts bay, was found dead in his cottage Sunday by two children of Henry Scribner when they went to pay a visit to the aged fisherman. Mr. Chase was 72 years of age and lived in a small hut on the side of the road between the Vermont inn and Thompson's point. He had lived in the one-room cottage since the death of his wife several years ago. Most of his time was spent in fishing in the bay. Sunday morning the two children found him on the floor and when their efforts to awaken him were fruitless told their parents, who visited the place and found that his was extinct. Selectman Mansau and Health Officer Thibault were summoned and death was found to be due to heart disease. The remains were removed to the undertaking rooms of A. B. Lavigne and will be taken to-morrow to West Bolton for burial. Mr. Chase leaves a brother, and a sister, Mrs. Williams of Cambridge.
